

Halting Harassment and Abuse in Sports using Learning Technologies

4th Newsletter

Partner: ASVO

(June – December 2020)

Due to the ongoing pandemic situation many projects to present the project of HALT to a bigger audience in 2020, have been cancelled.

Despite the situation the progress of the project is continuously communicated through our social media channels and websites.

Additionally, we were in contact with one of the leading experts on this topic Mag. Chris Karl who is always willing to help and to evaluate our outputs. Chris Karl is a very important multiplier regarding the sustainability and dissemination of this project. She is the first contact point for questions concerning sexual harassment and abuse in sports in Austria. We will also work together with her in future and she will keep us updated regarding the developments in this field in Austria.
